Unleashing Nature's Potential

**Easy Grow Eco Coir Pads®
 (Rubberized) Pads**

Product Code
COIR60030101

EasyGrowEcoCoirPads® (Rubberized) Mats are manufactured mixture of coco fibers and coco peat. The Coir mat is made of 100% Bio-Degradable natural fibres and is designed to last longer period and very durable. The Coir Mat is an ideal product to prevent erosion on slopes and on water lines and often it used in combination with our **Coir Logs**.

Rubberized Coir Pads (RCP) pads manufactured with coir fiber mixed with natural rubber latex. They have different densities and dimensions that can be applied for various purposes as mulch mats, protective plant covers, and inner liners for pots. The **RCP** pads help to maintain the extreme fluctuation in the soil temperature by insulating the soil. It also helps to keep away weed and grass from the plant vicinity.

- **Flat mat:** -The Flat mat is a woven 100% coir mat. It is tightly machine woven with a weight of approx. 2000gms/sq.
- **Rubber mat:** - Rubber mats are high quality flexible mats with low densities. Only one available size is (60 x 40) cm.
- The sizes are available from (30 x30) cm, 1m x 1m.
- Can be packed in pallets app. 1200 packs/pallet.
